Biography Summary - I have over one year of experience as a software developer and have participated in more than five projects, including those for corporate companies. I am a team-oriented professional who easily adapts to internal company hierarchies. My goal is to consistently develop solution-focused, modern, and up-to-date systems.

TECHNICAL SKILLS

- PHP
- JS (Node.js & jQuery)
- HTML, CSS
- Tailwind & Bootstrap
- VueJS
- Git, GitHub
- Swift & Flutter
- Web Server Management
- Database Architectures

PROFESSIONAL EXPERIENCE

GAPPZE Inc.

Intern

Kocaeli, Turkey

2022 – 2023

- Took part in internal BI tool development projects, focusing on data analysis and security architectures.
- Led content analysis, admin panel development, and API security processes for the ArDraw iOS application.
- Gained hands-on experience in iOS mobile app development using Swift; contributed to the versioning process of several applications.

REVENTY Inc.

Software Development Specialist

Kocaeli, Turkey

2023– 2024

- Developed a reusable and modular **Paywall Tool** for use across multiple mobile applications.
- Implemented advanced authorization mechanisms and sensitive data protection in the **BI Tool system**.
- Developed the backend of a **secure document sharing system** for **TEKNOSA** and **TEMSA**, two of Turkey's leading companies in the retail and automotive sectors, respectively. The system successfully passed rigorous security testing. Contributed to **frontend-backend integration**, as well as **UI and UX improvements** throughout the development process.
- I developed the first version of the **Speedometer iOS mobile application**, currently live on the **App Store**, using **Swift**. I was responsible for both the UI design and the overall functionality.

EDUCATION

Fatih Vocational and Technical Anatolian High School

Kocaeli, Turkey – 2019 – 2023

Field of Information Technologies (Graduated as Top of the Class)

PORTFOLIO

- **Teknosa Transfer (Web):**

Developed a secure file sharing system for Teknosa Inc.
